

## Analytical report AR-26-E8-122394-01

**Sample code** 297-2026-00178013

Issue date 18.09.2026

|                                 |                                                        |
|---------------------------------|--------------------------------------------------------|
| <b>Client</b>                   | SFD S.A.<br>ul. Głogowska 41<br>45-315 Opole<br>POLSKA |
| <b>x Type of sample</b>         | ALLNUTRITION NUTLOVE OAT DRINK 1l<br>005-32419-3984023 |
| <b>x Prescriber</b>             | SFD S.A.                                               |
| <b>x Purchase order date</b>    | 28.08.2026                                             |
| <b>Transport by</b>             | Courier                                                |
| <b>x Sampling Person</b>        | principal                                              |
| <b>x Purpose of the testing</b> | not specified                                          |
| <b>x Type of sampling</b>       | to guarantee its representativeness                    |
| <b>Reception date</b>           | 31.08.2026                                             |
| <b>x Batch number</b>           | A010059                                                |
| <b>x Packaging</b>              | manufacturer packaging                                 |
| <b>Sample condition</b>         | acceptable                                             |
| <b>Transport condition</b>      | at ambient temp.                                       |
| <b>Number of tested samples</b> | 1                                                      |
| <b>x Client sample code</b>     | Nowa próbka 11                                         |
| <b>Start analysis</b>           | 31.08.2026                                             |
| <b>End Analysis</b>             | 17.09.2026                                             |

### Results / Outcomes

| Test code | Parameter                                    | Method                        | Result            | Unit                     | Uncertainty of measurement | Criteria          |
|-----------|----------------------------------------------|-------------------------------|-------------------|--------------------------|----------------------------|-------------------|
| A7294     | Ergocalciferol (vitamin D2) (A)              | EN 12821:2009 mod.,<br>LC-DAD | 0,773 //<br>0,788 | µg/100 g //<br>µg/100 ml | ± 0.20098                  | 0,75<br>µg/100 ml |
| DJB33     | Riboflavin incl. phosphorylated forms<br>(A) | EN 14152:2014 mod.,<br>LC-FLD | 0,243 //<br>0,248 | mg/100 g //<br>mg/100 ml | ± 0.03888                  | 0,21<br>mg/100 ml |

A = Accredited method

x = Data provided by the customer

Details of laboratory accreditation:

A7294, DJB33: Eurofins Vitamin Testing Denmark RE00037: DS EN ISO/IEC 17025 DANAK 581

+/- Uncertainty of measurement presented as expanded uncertainty of measurement (95%; k=2). The measurement uncertainty does not take into account the sampling step.

**JUDGEMENT**

Density = 1,0192 g/ml

*Wiktoria Tomecka-Orzel*

---

Approved by Wiktoria Tomecka-Orzel  
Junior Analytical Service Manager

1. The results apply to samples received and analyzed.
2. The test results shall not be reproduced except in full without the written permission of Eurofins Polska Sp. z o.o.
3. Laboratory measurement uncertainty is given when it is relevant to the validity of the test result or the application of the test results; it is agreed with the client; if the uncertainty of measurement affects compliance with the specified limit.
4. The client has the right to submit a complaint within 14 days of receiving the analytical report. May be admitted only complaint in writing, by email reklamacje@eurofins.pl or by mail.
5. Approved analytical results made by subcontractors are authorized by persons authorized in the laboratory of the subcontractor.
6. In case a Customer demands a statement of conformity, or a requirement related to a test and the decision making rule is not included in the documents listed above, the Laboratory appoints a rule to be applied.
7. If the result is not within the accredited measurement range, the value is presented as a test result in the form  $<y$  or  $>y$  ( $y$  - value corresponding to the lower/upper limit of the accredited method's measurement range).
8. The laboratory is not responsible for the data provided by customers. The data provided may affect the validity of the results.
